### 1. Introduction

The Donvale Football Club (the Club) acknowledges that Social Media has increasing prevalence in both the professional and private lives of its Members.

The Club recognises the value in using Social Media to build more meaningful relationships with players, supporters, communities and other relevant stakeholders.

Social Media offers the opportunity for people to gather in an online environment of shared interest and create, share or consume content in ways that can be beneficial for community football. It also has become a key information source for many people.

Where Social Media differs from most other forms of traditional media is the ability to engage in true two-way communication and for virtually anyone to participate in and contribute to the content.

Therefore, this policy has been created to ensure that members of the Club who use Social Media have information to support responsible use where the Club's business is involved, including its services, its people, its sponsors, and / or other business related to individuals or organisations.
